

LD70, LD70-OP & LD70D

Ultra Shallow Recessed Shelf Light

Data sheet - Page 1

The LD70, LD70-OP and the LD70D range of light fittings is a series of extremely shallow recessed LED downlights. They feature minimal bezel thicknesses and are available with an optional half or fully cowlled bezel to give optimal glare control, making them ideal for ultra discreet lighting in display cabinets or under shelving.

The LD70D is available with our standard narrow beam optic at a recess depth of 17mm, which allows for continuity with other LightGraphix products. Alternatively, where there is a requirement for an even shallower recess depth, the LD70 uses our new range of miniature optics and requires a recess depth of only 13mm. LD70-OP has an opal diffuser and no optic, creating a very wide, diffused spread of light.

Both LD70 + LD70D are available with half cowl (HC) & full cowl (FC) options.

Key Features

- Very minimal product depth, only 13mm void needed (17mm required if LD70D is specified)
- Ideal for shelf or under cabinet lighting
- Spring clips designed for solid cabinets / shelving
- Polarity protection on chip
- Can be mounted directly into surface without the need for a thermal void
- Optional half & full cowlled bezels available for further glare control
- Interchangeable bezels
- Wide range of beam angles & optics suitable for all projects
- Minimal bezel thickness
- 93 CRI LED in warm white.
- Available with switched, 0-10V, DMX, DALI or Mains dimmable drivers

LED lifetime (to 70% lumen maintenance)

50,000hrs at a max ambient temperature of 35°C (if specifying fitting in ambient temperatures of up to 45°C run at 500mA max)

Materials

Aluminium body and bezel

Wiring

Comes pre-wired with flat 2-core 100mm lead, can be specified with up to 10m at extra cost

IP rating

IP20

* NB available only in LD70D, SWB available only in LD70-OP

**LED wattage includes losses associated with using an 85% efficient driver

***2700K lumen output is 12% lower than the 3000K figure listed

4000K lumen output is 14% higher than the 3000K figure listed (80 CRI)

Comparison Guide

	Product Diagram	Void Recess Depth	Beam Angle	Drive Current	Narrow Beam Available
Opal Diffusion					
 LD70-OP		13mm	120°	350mA, 500mA, 700mA	N
Lisa Micro Optics					
 LD70		13mm	30°, 51°	350mA, 500mA, 700mA	N
 LD70-HC		13mm	30°, 51°	350mA, 500mA, 700mA	N
 LD70-FC		13mm	30°, 51°	350mA, 500mA, 700mA	N
Tina Mini Optics - Used in LD51 / LD56 / LD71					
 LD70D-HC		17mm	12°, 31°, 48°	350mA, 500mA, 700mA	Y
 LD70D-FC		17mm	12°, 31°, 48°	350mA, 500mA, 700mA	Y

*The Tina optic is the standard optic for all LightGraphix products that use the Cree XPG2 LED. It is recommended to use the LD70D if it is part of a project using a range of Lightgraphix products.

Use with 350mA, 500mA and 700mA constant current LED drivers

We have a wide range of dimmable LED drivers, 0-10V, DMX, DALI and Mains dimmable. Please see the downloads section on our website:

To run 1-14 LD70**-350 in series use a TXDEL350D (0-10V dimmable)

To run 1-14 LD70**-500 in series use a TXDEL500D (0-10V dimmable)

To run 1-13 LD70**-700 in series use a TXDEL700D (0-10V dimmable)
