

LD170

HIGH-POWER LED INTERIOR/EXTERIOR WALL LIGHT

CB | R+R

The LD170 is a powerful but compact, recessed wall light designed to produce a low glare uniform floor wash for interior and exterior applications. LD170 is ideal for the illumination of broad steps and pathways with its wide oval beam, integral glare baffle and 20° kick lens which focuses the beam down onto the lit surface. Available LED engines include E3 and F1 which offer colour temperatures between 2200K-5000K, with optional accessories and bezel finishes to choose from. The bezel aesthetic is minimal featuring black trim glass and no visible fixings. This is a very tough, high quality fitting, machined from high grade materials, ensuring excellent thermal and light output performance.

DIMENSIONS AND FIXING ACCESSORIES

Dimensions in mm

/484S First fix sleeve

The fitting should be specified with a /484S first fix sleeve; this is bonded into the mounting surface first. It is secured into the sleeve by two O-rings on the body. When pushed into the sleeve it creates a watertight seal.
