

LD18

Tilted Exterior LED Floor and Wall Washer

Data sheet - Page 1

LD18 is ideal for projects where a more industrial look with visible fixings is required. It features the latest in LED technology and has a very shallow recess depth. The LED and optics are tilted at 17° to focus the light on the lit surface, and reduce light spill.

Key Features

- LED and lens assembly tilted at 17° within either a black anodised aluminium or a polished stainless steel body.
- Tilted beam angle makes it an ideal solution for floor and wall washing
- Can be mounted as an uplight or wall light
- Integral anti wicking barrier increases protection against moisture ingress due to incorrect IP rated cable connections
- Not designed for permanent submersion, please use our LD242A.
- Available with Switch, 0-10V, DMX, Dali or Mains dimmable drivers
